

# 5 KEY TIME SAVING EMAIL FEATURES

With its cutting-edge features, our customers have saved up to 5-8 hours daily on manual processes such as searching for emails, sending emails, troubleshooting issues, training and more. Learn about the top 5 time-saving features in reMARK.

## Troubleshooting + Training

MINIMUM OF 30 MINUTE TIME SAVING DAILY

Make sure that the rich feature set of reMARK is utilized from the beginning with our extensive onboarding.

When new users are added, we can train at any time. If a refresher is needed, book bootcamps to investigate best practices!

## Smart Folders

UP TO 90 MINUTES SAVED

This automated tool streamlines the retrieval of mission-critical data without worrying about sorting through a high volume of emails.

With unlimited folder usage, storing relevant data is easier than ever.

## Templates

AVERAGE OF 60 MINUTES SAVED PER DAY

Templates assist in streamlining communication by quickly and easily sending out information without starting from scratch each time.

Use these for personalized signatures and phrases, texts that you regularly include in your email, or even form fills.

## Search Function

SAVES UP TO 90 MINUTES DAILY

reMARK's search function is a revolutionary tool for maritime shipping businesses.

It allows you to search via keywords, subject line & more, eliminating the need for time-consuming manual searches.

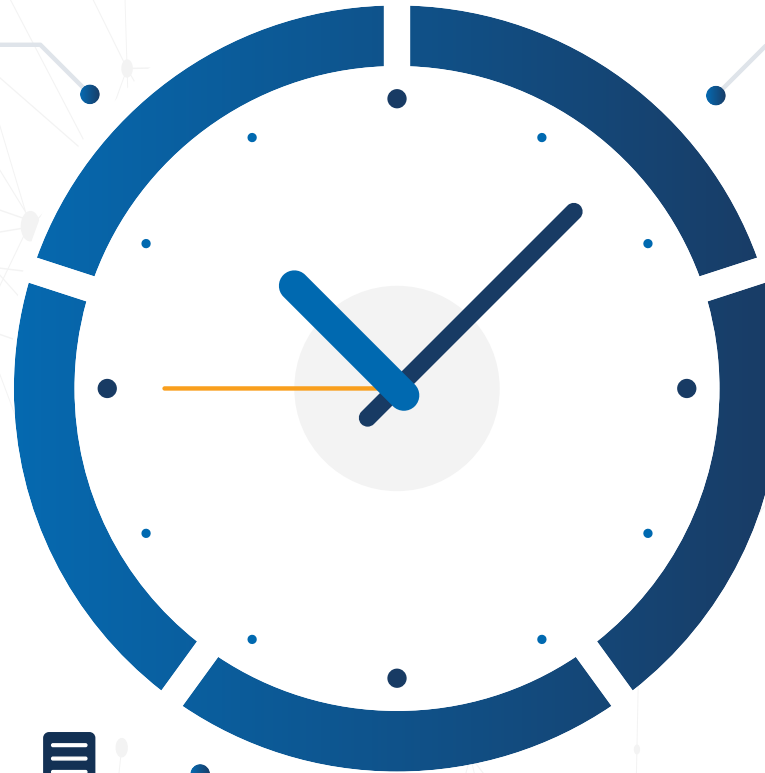

## Categories

SAVES UP TO 90 MINUTES DAILY

reMARK's unique categorization system provides an unlimited number of categories to label each email with a specific keyword.

This system makes it easier to find what you need when you need it.

**Nordic IT is dedicated to providing the maritime shipping industry with the best email collaboration solution to improve operational processes. Learn how to save time for your organization by using reMARK. Talk to our team today.**
