Introducing reMARK Cloud **with Nordic IT**

Nordic IT's fully managed SaaS solution, reMARK Cloud, is perfect for maritime companies who want to focus on their core business and not worry about the technology behind it. Nordic IT will handle everything from updates to maintenance, while ensuring your system is running smoothly at all times.
Focus on What Matters Most

From implementation to execution, reMARK Cloud is a maritime shipping company's best bet for a worry-free collaborative email solution.

We've Got You Covered
Nordic IT understands that you need a reliable and robust back-end system to support your maritime shipping operations. That's why we offer a fully managed SaaS solution, backed by our team of experts. We will operate all of the resources necessary to run the back-end of your system, including:

Infrastructure • Maintenance • Updates • Monitoring • Proactive Remediation

Sail Through Maritime Business Operations With Ease
Why might our SaaS solution be right for your maritime shipping business?

reMARK Cloud offers your business a competitive edge, while taking IT worries entirely off your plate. With Nordic IT's dedicated team handling reMARK's infrastructure, shipping companies can concentrate on their business goals, not technical upkeep. Here are just some of the advantages you can expect with moving to reMARK Cloud:

Reduced Costs - Reduced licensing, hardware, and personnel costs.

Increased Uptime - Ensure you're always able to access reMARK when it matters most.

Thorough Implementation Process - Our team works with you to develop a successful implementation timeline.

Scalability - Never worry about performance issues or over provisioning resources with automatic scalability.

Device Capabilities - Our cloud solution supports our powerful mobile application while enhancing our existing desktop application.
