

6 WAYS reMARK DELIVERS MORE THAN COMPETING BUSINESS EMAIL SOLUTIONS

As a comprehensive email collaboration platform, reMARK contains all the email tools you need to run your operations with unparalleled efficiency. When comparing email platforms, it's essential to evaluate the collaborative email features available to you.

reMARK

Assign emails & use the to-do list feature for greater collaboration between teams.

Team Overview feature & internal Comments feature allow for improved project visibility.

Expanded storage capabilities allow users to pull up even their oldest emails in one place.

Smart Folders, Email Filtering & Automatic Categorization features enable significant time savings.

Pull up emails from years ago or instant filter in the active view.

Three types of folders are available to maximize structure and collaboration. Both shared and private.

MOST COMPETING EMAIL SOLUTIONS

PROJECT & TASK MANAGEMENT

Emails & tasks can't be assigned to others; There is no way to tell what has been handled and what hasn't.

VISIBILITY

Lack of team action insights and comments feature to keep colleagues in the loop.

STORAGE

Slow retrieval of emails and potential confusion as to where it is stored.

WORKFLOW MANAGEMENT

Manual processes like email archival & tedious workflows hinder productivity.

SEARCH CAPABILITIES

Slower searching speeds that often produce unexpected results.

FOLDER MANAGEMENT

Cumbersome manual filing options that take a long time and are prone to human error, if filing is even available.
