Your Maritime Operations with Nordic IT & ZeroNorth

reMARK
BY NORDIC·IT

An Innovative Partnership for Maritime Efficiency

Nordic IT has established a pivotal partnership with ZeroNorth, the frontrunner in maritime optimization driven by data analytics. With reMARK Insights, the MARKet Data module is our first initiative to present email data in a smarter way to the user.

Enhance Your Email Workflows

reMARK is now seamlessly integrated with ZeroNorth's comprehensive data analysis platform. This partnership marks a new era of unprecedented data interconnectivity and automated analysis for improved operational efficiency.

Automated Email Data Insights

Our collaborative solution sorts through vast volumes of email data automatically, offering you actionable insights for effective decision-making—all with Nordic IT's reMARK and ZeroNorth's sophisticated parsing engine.

Uncover Key Market Details with Ease

This latest integration with ZeroNorth allows reMARK users to quickly identify:

VESSEL POSITIONS AND AVAILABILITY

CARGO OPPORTUNITIES

MARKET TRENDS

AND MORE

With data extraction capabilities, reMARK users can readily find open dates, sizes, and cargo details, giving you an edge in the chartering marketplace.

Elevate Your Business Performance

Enhance performance and seize new business opportunities to make quicker, informed decisions while staying ahead in the competitive maritime industry.

Time-Saving Solutions

Time is money. Our technology allows you to quickly sift through information and get to the heart of what's important, allowing you to focus more on strategy and growth.
